

Promoting thinking and talking in primary science

Enable your pupils to experience the excitement of discovery and to develop higher level thinking skills by giving them extended opportunities to talk about their investigations.

The course

Take part in activities that investigate the key elements of thinking, talking and communicating in science and develop these skills to create an effective learning environment in your classroom.

Outcomes

Your increased knowledge of science-based strategies to develop children's thinking skills and collaborative working will help your pupils to make progress in their science learning.

90% of those asked about CPD in Science Learning Partnerships said they had shared the learning from their CPD with colleagues and that this had an impact on their practice

National STEM Learning network: regional programme evaluation report 2015-16

What are you looking for?

PROFESSIONAL DEVELOPMENT

We offer high-impact professional development across the UK, and online, based on the latest developments in both pedagogy and STEM subjects. We can also tailor professional development to your school's specific needs with our bespoke CPD.

CAREERS EDUCATION

As well as a host of excellent resources on our website including the Careers Toolkit, we also run the STEM Insight programme to give you a unique experience in industry or university through inspiring placements.

INSPIRATION

We've got a host of ways to help you inspire your students: why not bring a STEM Ambassador into your school to talk about STEM subjects and careers, or start a STEM Club to build confidence and teamwork skills?

COMMUNITY

Share your ideas and challenges with teachers and technicians through our online groups and at our networking events. And join us on Twitter - we have over 20,000 like-minded educators following us.
